

EDUCATION

Lovely Professional University B.Tech CSE (HONORS) - CGPA : 7.78	Punjab, India
Govt Boys Higher Secondary Intermediate - CGPA: 7.1	J&K, India

PROFESSIONAL SUMMARY

Motivated and detail-oriented Frontend / Full-Stack Developer with hands-on experience in building real-time, scalable web applications using React.js, Node.js, PostgreSQL, and Socket.IO. Creator of CollabSphere, a collaborative task management and chat platform featuring role-based workflows, analytics dashboards, and real-time communication. Strong foundation in modern frontend tools, RESTful APIs, and backend integrations. Open to remote and global opportunities in dynamic, team-driven environments.

TECHNICAL SKILLS

- Languages:** JavaScript, TypeScript, SQL, HTML, CSS
Frontend: React.js, Tailwind CSS, Zustand, Recharts
Backend: Node.js, Express.js, Prisma ORM
Database: PostgreSQL, MongoDB
Real-time: Socket.IO
Auth & Security: JWT, bcrypt
Tools: Git, GitHub, Figma, Postman, Yarn, Vite, REST APIs

EXPERIENCE

AI Intern Codec Technologies Link	Aug 2024 - Oct 2024
Designation : Intern	
<ul style="list-style-type: none">Integrated the AI like HuggingFace , Open Ai API with the Websites to get the best outcome possible.Implemented real-time communication using Socket.IO for seamless messaging, typing status with message prioritizing.	

PROJECTS

◆ CollabSphere – Real-time Task Manager & Chat App Link	Mar 2025 - Present
Stack: React, Node.js, PostgreSQL, Prisma, Zustand, Socket.IO, Tailwind CSS A real-time task management platform with role-based dashboards for Admin, Manager, and Users. Integrated:	
<ul style="list-style-type: none">Real-time chat system with Socket.IO and persistent PostgreSQL storage.Task assignment with approval workflows, audit logs, notifications (Sonner).Analytics dashboard (Recharts) with trends, performance metrics, and charts.Advanced features: file attachments, feedback system, task history, and more.	

DarkMode Library | [Link](#)

Oct 2024 - Dec 2024

Domain : React Js , Tailwind css

- Developed and maintained a universal dark mode library for React, providing seamless global dark mode implementation with CSS variables.
- Implemented context-based dark mode toggle with persistent state using localStorage and efficient state management.

Finance Tracker App | [Link](#)

Jul 2024 - Aug 2024

Domain : React Native

- Developed the front-end of a Finance Tracker app using React Native for cross-platform mobile development.
- Integrated charting libraries to visualize financial data, including expenses, income, and savings.
- Implemented state management using React hooks to handle dynamic updates and data flow.
- Focused on creating a user-friendly interface and responsive design for an optimal mobile experience.

Chat Web App | [Link](#)

Mar 2024 - May 2024

Domain : React Js, Node js, Socket.io

- Developed a responsive chat interface with message auto-scroll and clean UI using React and Tailwind CSS.
- Developed WebSocket logic using Express.js to manage chat rooms, users, and messages.
- Implemented real-time communication using Socket.IO for seamless messaging, typing status.

Languages & Soft Skills:

- English (Fluent), Urdu (Native), Kashmiri
- Strong problem-solving skills, fast learner, team player
- Passion for building scalable and clean web solutions
